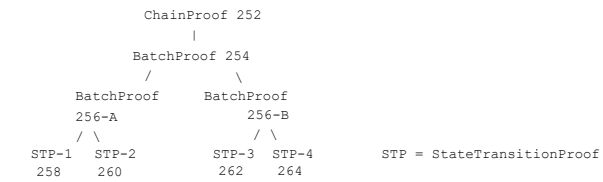
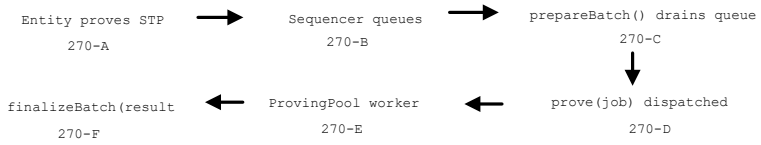
FIG. 2 — RECURSIVE PROOF CHAIN (3 LEVELS, maxProofsVerified=2) 200

RECURSIVE MERGE TREE (Binary Reduction) 250



Batch of N transitions: ceil(log2(N)) merge rounds
All .verify() calls execute INSIDE ZK circuits (not external checks)
Pickles constraint: maxProofsVerified=2, max recursion depth=2


PROOF PIPELINE (Sequencer Flow) 270
